

Natural Oils and Water-based Stains

NATURAL OILS

9200 Series

DESCRIPTION

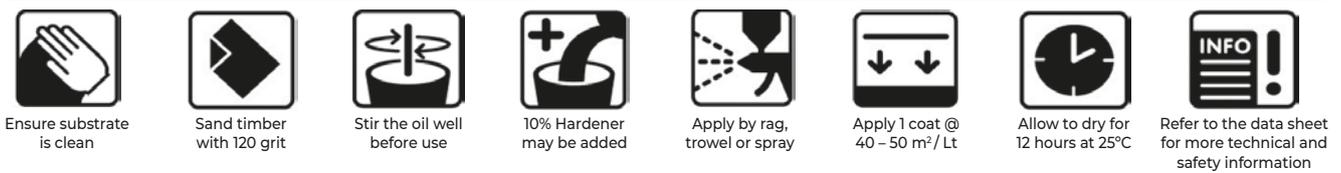

A natural, zero VOC Oil and linseed oil base. This product is free of cobalt-and lead-containing siccatives, mild aroma, low in solvent. With good accentuation of the wood and outstanding mechanical and chemical resistance. Very economical, as the wood is safely protected with one application!

APPLICATION AREAS

For coating parquet and engineered oak flooring; surface treatment of wood and furniture in interior areas, such as living rooms, bedrooms, wall and ceiling panels. Suitable for use in children's bedrooms.

COLOUR RANGE

We offer a standard range of 20 off the shelf colour oils, however we can tint our oils to any shade required.

WATER-BASED STAINS

9400 Series

DESCRIPTION

Hesse HYDRO stains are ready to use, environmentally friendly stains that impart brilliant to slightly muted stain effects onto almost all types of timber, without distinctive emphasis of the pores.

APPLICATION AREAS

For staining and subsequent coating of furniture, stairs and doors in industrial and craft applications. Suitable for various application methods, such as spraying, ragging, dipping or brushing. For use on various woods such as oak, beech, walnut, cherry, mahogany and maple.

COLOUR RANGE

We offer a range of 10 off the shelf stains, however we can tint our stains to any shade required.
